Subject: **California Water Environment Association (CWEA)
Pretreatment, Pollution Prevention, and Stormwater (P3S) Committee's
Nominations for the 2017 Facility of the Year (FOTY) Awards**

Dear CWEA Member and Water Quality Protection Professional:

Do you know an industrial user that should be recognized for their efforts and performance in process wastewater pretreatment technology, material recycling, waste minimization, pollution prevention practices or stormwater runoff control programs? Here is your chance to provide them the recognition they deserve.

Currently, the CWEA Pretreatment, Pollution Prevention, and Stormwater Committee is in the process of soliciting nominations for the 2017 Facility of the Year Awards. These FOTY Awards are intended to recognize industrial user sites for their outstanding and innovative solutions in multimedia waste management.

Please review the criteria section listed in the enclosed nomination package to determine the industrial users in your service area that you believe qualify to be nominated. Additionally, the P3S Committee encourages you to share this package with all other colleagues at your agency who may wish to submit a nomination. The nomination package is generic and is not intended to be a limiting factor. Be sure to include all supplemental materials and information which will assist the FOTY Awards Subcommittees in the proper review of your nomination.

You can download the application or complete it online here: <https://cweaawards.secure-platform.com/a/page/awards/P3S-Facility>

Our contact list may include professionals who are not familiar with the CWEA P3S FOTY Award, yet who know of industrial users worthy of nomination. For those professionals who are not a member of the CWEA and would like to join, please contact the CWEA office at (510) 382-7800 for membership information.

Nominations are requested to be submitted by **November 1st, 2017** to the addresses shown in the enclosed nomination package.

Please contact the FOTY Awards Subcommittee Chairperson of your State area if you have any questions about the FOTY Awards process.

Casey Fitzgerald (North): casey.fitzgerald@sanjoseca.gov

Stephen Sealy (South) : ssealy@lacsdc.org

Your submitted nominations for the P3S FOTY Awards process are essential for the P3S Committee to continue to have a successful program in recognizing the accomplishments and compliance of our regulated industries. Thank you for your participation in the CWEA P3S FOTY Awards program.

Cheers,

Stephen Sealy
CWEA P3S FOTY Awards Subcommittee Chair – South
